

# Investment Briefs for Student Achievement Component funding

Student Achievement Component (SAC) Investment Briefs provide information on our expectations for SAC provision. The SAC Investment Briefs are grouped into three categories: SAC levels 1 to 3; SAC levels 4 to 7 (non-degree) and SAC level 7 (degree).

The Investment Briefs are on the [Investment Toolkit](#) section of our website.

## Investment Briefs provide information about specific areas of provision

Each Investment Brief gives clear messages and relevant information about what we want to see in your activities, especially in terms of parity of achievement. The investment briefs include:

- › the purpose of our investment in Student Achievement Component funding
- › key outcomes relating to parity (with targets),
- › how we will work with you to achieve the targets, and
- › what we are looking for in your investment plans and/or Educational Performance Indicators (EPIs).

The targets included in each Investment Brief are not Tertiary Education Organisation (TEO) specific targets but rather overall system level targets. You will have individual conversations with your Relationship Manager about how your organisation can contribute to these targets.

Investment Briefs covering areas including Food and Fibre, Construction and Initial Teacher Education may also be relevant to your planning. You will need to consider all relevant Investment Briefs for your Investment Plans and/or EPIs.

## We have updated the documents for funding in 2022

The Investment Briefs have been updated with 2019 educational performance information. New post-study outcomes information is also available via the *Post-Study Outcomes* information product.

We will provide 2020 delivery and performance information at a later date.

## Use Ngā Kete information products to better understand the information in Investment Briefs

The data in the Investment Briefs comes from the Ngā Kete information products, specifically the *My Performance*, *My Provision* and *Tertiary Provision* information products. These information products will give you further information about your organisation's performance.

## Questions?

If you have any questions regarding the Investment Briefs, please contact your Relationship Manager or the TEC Customer Contact Group.
