

Assessment and verification template on Workspace2 (WS2)

This document shows the new WS2 Assessment and verification template, with instructions, for use from 1 January 2023

Programme Course Number	Programme Course Version	Comment
Drop down	Drop down	User Entry

Assessment and verification instructions (extract - draft)

This template must be completed by TEOs that submit data through the Industry Training Register (ITR) if any of the programmes are delivered under the assessment and verification (A&V) mode of delivery.

This template will be provisioned to all ITR-submitting providers at the start of each year.

- It should be submitted at the end of each month with all programmes / versions that are A&V
- Providers will need to ask for the template to be set to REVISE, update for new A&V programmes, and resubmit
- A blank template should be submitted by providers with no A&V arrangements.

For more information on modes of delivery, please refer to the TEC website [here](#).
