

OUR PURPOSE

To shape a dynamic system that delivers lifelong learning and equips learners, communities and employers for success.

OUR VISION

A resilient, prosperous New Zealand where every person has the skills, knowledge and confidence to create a fulfilling life.

OUR TE TIRITI COMMITMENTS

We commit to honouring Te Tiriti o Waitangi by partnering with tangata whenua, meeting the needs and aspirations of Māori learners and their whānau, and actively protecting taonga.

OUR GOALS

Our goals clarify what we want to achieve

› Equity

Our education, training and career pathways support equitable outcomes and an inclusive society.

› Build the right skills to succeed

The careers system supports everyone to gain the skills, knowledge and pathways to succeed, so people, employers and communities can thrive.

› An adaptable system

We have an adaptable tertiary education system that serves the needs of New Zealand now and in the future.

› Equip TEC for the future

To be an insight-driven and culturally affirming agency.

OUR PRIORITIES

We'll enable the goals through delivering on the following priorities

› Thriving TEC

Invest in and grow our people so we are more data-savvy, learner-centric, equity-minded and culturally affirming.

› Make it easier to upskill or change pathways

Invest in flexible learning options and support so people can transition between work and learning throughout their lives.

› Build an integrated career response

Partner with stakeholders to develop information, advice and guidance to empower every person to find their pathway to meaningful work.

› Unify the vocational education and training system

Ensure learners, vocational education providers, employers and industry are fit for today's needs and tomorrow's expectations.

› Shift to a learner-centred investment system

Develop an investment system that is outcome-driven and focuses on learners, whānau and communities.

› Embed our Ōritetanga learner success approach across the sector

Build the capability of tertiary education organisations to take a systemic, learner-centred approach to all aspects of their operation.

Kete whiri: Our Strategy

Our whiri is our backbone. A high-quality kete has a secure and tight whiri or plait which sits at the foundation bringing together the different flax strands. Like the whiri, we see TEC as the strength at the centre of the tertiary education and careers system.

OUR PURPOSE

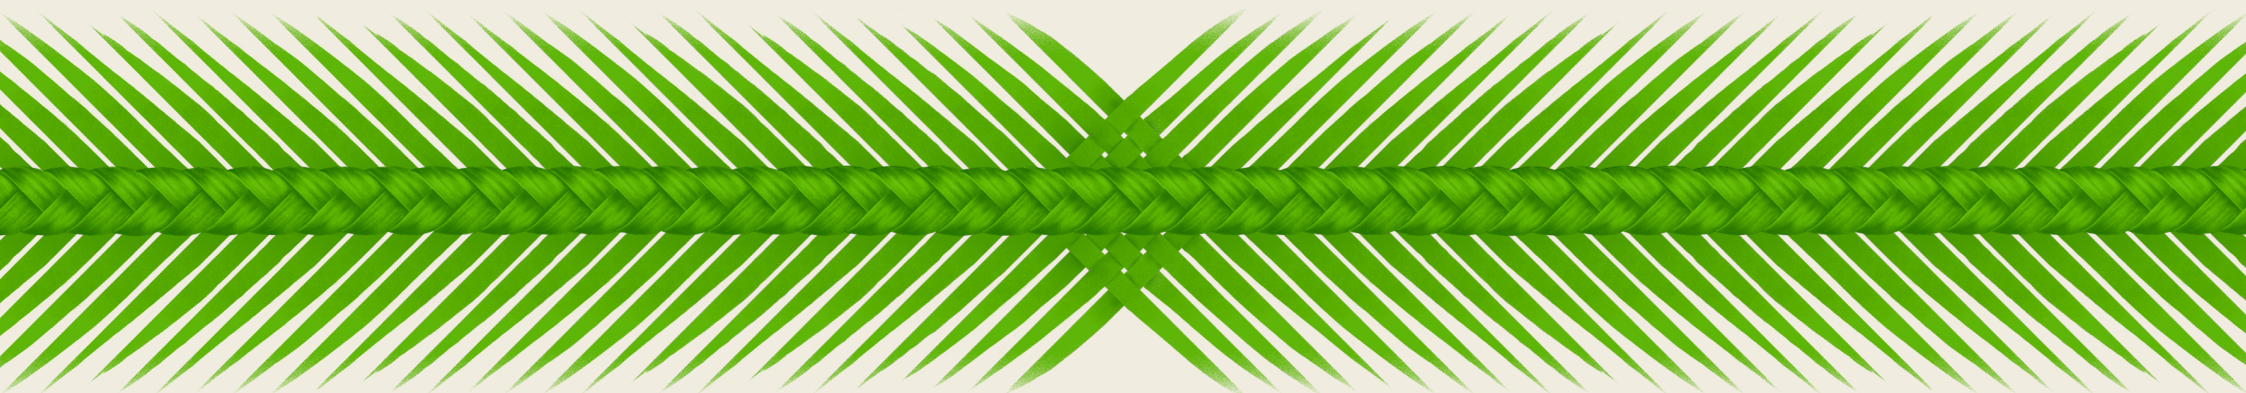

To shape a dynamic system that delivers lifelong learning and equips learners, communities and employers for success.

OUR VISION

A resilient, prosperous New Zealand where every person has the skills, knowledge and confidence to create a fulfilling life.
